

MITSUBISHI

GT15 Printer unit
User's Manual

GT15-PRN

Thank you for purchasing the GOT1000 Series.

Prior to use, please read both this manual and detailed manual thoroughly to fully understand the product.

MODEL	GT15-PRN-U
MODEL CODE	1D7M47
IB(NA)-0800334-D(0707)MEE	

GRAPHIC OPERATION TERMINAL
GOT1000

SAFETY PRECAUTIONS

(Always read these precautions before using this equipment.)

Before using this product, please read this manual and the relevant manuals introduced in this manual carefully and pay full attention to safety to handle the product correctly.

The precautions given in this manual are concerned with this product.

In this manual, the safety precautions are ranked as "DANGER" and "CAUTION".

DANGER Indicates that incorrect handling may cause hazardous conditions, resulting in death or severe injury.

CAUTION Indicates that incorrect handling may cause hazardous conditions, resulting in medium or slight personal injury or physical damage.

Note that the CAUTION level may lead to a serious accident according to the circumstances. Always follow the precautions of both levels because they are important to personal safety. Please save this manual to make it accessible when required and always forward it to the end user.

DESIGN PRECAUTIONS

DANGER

- Do not bunch the control wires or communication cables with the main circuit or power wires, or lay them close to each other. As a guide, separate the lines by a distance of at least 100 mm (3.94 inch) otherwise malfunctions may occur due to noise.

INSTALLATION PRECAUTIONS

DANGER

- Be sure to shut off all phases of the external power supply used by the system before mounting or removing this unit to/from the GOT. Not doing so can cause a unit failure or malfunction.
- Before connecting the Bus connection cable to this unit, always shut off GOT power and PLC CPU power externally in all phases. Not doing so can cause a malfunction.

CAUTION

- Use this unit in the environment given in the general specifications of the GT15 User's Manual. Not doing so can cause an electric shock, fire, malfunction or product damage or deterioration.
- When installing this unit to the GOT, fit it to the connection interface of the GOT and tighten the mounting screws in the specified torque range. Undertightening can cause a drop, failure or malfunction. Overtightening can cause a drop, failure or malfunction due to screw or unit damage.

WIRING PRECAUTIONS

DANGER

- Be sure to shut off all phases of the external power supply used by the system before wiring. Failure to do so may result in an electric shock, product damage or malfunctions.

CAUTION

- Exercise care to avoid foreign matter such as chips and wire offcuts entering the unit. Not doing so can cause a fire, failure or malfunction.

STARTUP AND MAINTENANCE PRECAUTIONS

DANGER

- Before starting cleaning, always shut off GOT power externally in all phases. Not doing so can cause a unit failure or malfunction. Undertightening can cause the GOT to drop, short circuit or malfunction. Overtightening can cause a short circuit or malfunction due to the damage of the screws or unit.
- Do not disassemble or modify any unit. This will cause failure, malfunction, injuries, or fire.
- Do not touch the conductive areas and electronic parts of this unit directly. Doing so can cause a unit malfunction or failure.

CAUTION

- Always secure the cables connected to the unit, e.g. run them in conduits or clamp them. Not doing so can cause unit or cable damage due to dangling, moved or accidentally pulled cables or can cause a malfunction due to a cable contact fault.
- Do not hold the cable part when unplugging any cable connected to the unit. Doing so can cause unit or cable damage or a malfunction due to a cable contact fault.
- Do not drop the module or subject it to string shock. A module damage may result.
- Always make sure to touch the grounded metal to discharge the electricity charged in the body, etc., before touching the unit. Failure to do so may cause a failure or malfunctions of the unit.

DISPOSAL PRECAUTIONS

CAUTION

- Dispose of this product as industrial waste.

TRANSPORTATION PRECAUTIONS

CAUTION

- Make sure to transport the GOT main unit and/or relevant unit(s) in the manner they will not be exposed to the impact exceeding the impact resistance described in the general specifications of the GT15 User's Manual, as they are precision devices. Failure to do so may cause the unit to fail. Check if the unit operates correctly after transportation.

Manuals

The following shows manuals relevant to this product.

Detailed Manual

Manual name	Manual Number (Model code)
GT15 User's Manual (Sold separately)	SH-080528ENG (1D7M23)
GOT1000 Series Connection Manual (Sold separately)	SH-080532ENG (1D7M26)

Relevant Manuals

For relevant manuals, refer to the PDF manual stored within the drawing software used.

Compliance with the EMC and Low Voltage Directives

When incorporating the Mitsubishi GOT into other machinery or equipment and keeping compliance with the EMC and low voltage directives, refer to "EMC AND LOW VOLTAGE DIRECTIVE" of the GT15 User's Manual. The CE logo is printed on the rating plate of the GOT, indicating compliance with the EMC and low voltage directives.

Packing List

The following items are included.

Model	Product	Quantity
GT15-PRN	Printer unit	1
	Mounting screw set (2 pieces of screw, 2 pieces of sticker)	1
GT09-C30USB-5P	Dedicated printer connection cable (3m)	1
	Cable clamp set (Connector holder with screw, cable clamp)	1

1. Overview

This User's Manual describes the GT15 printer unit. With the printer unit installed, the GOT can be connected to a printer. Use PictBridge compatible printers. Printers incompatible with PictBridge cannot be used with the GOT.

2. Specifications

The performance specifications of the printer unit are indicated below. The general specifications of the printer unit are the same as those of the GOT. Refer to GT15 User's Manual for the general specifications of the GOT.

Item	Specification
Internal current consumption (5VDC)	0.09A
Weight	0.08kg (0.18lb) (Including connector holder and cable clamp)

3. Part Names and External Dimensions

Unit: mm (inch)

* The external dimensions of printer unit with a cable clamp and connector holder attached is shown above.

Dimensions of X when the printer unit is mounted to the GOT

15", 10.4"	21(0.83)
12.1"	18(0.71)
8.4", 5.7"	23(0.91)

Unit : mm(inch)

No.	Name	Description
1)	Mounting screw	Mounting screws fixed with the front communication unit or GOT
2)	Connector holder	Holder for preventing a dedicated printer connection cable disconnection
3)	Cable clamp	For cable treatment
4)	Connector	USB connector for connecting a dedicated printer connection cable
5)	Rating plate	-

4. Installation Procedure

4.1 Cable connection

- Connect a dedicated printer connection cable to the printer unit.
- Attach the accessory connector holder to the dedicated printer connection cable and tighten the screw of connector holder with tightening torque of 0.36 to 0.48N·m.

- Depending on the use environment such as when fastening cable is difficult, attach a cable clamp to the printer unit. Be sure to attach the cable clamp to section A (see the following figure) with its band positioned outside and press it until it clicks. For the band inserting direction, refer to the arrow. (In the case a cable clamp is attached)
- Insert the dedicated printer connection cable in the looped cable clamp band and pull the band to fasten the cable.

4.2 Unit Installation

- Power off the GOT.
- Remove one extension unit cover of the GOT.

- Fit the printer unit in the GOT case.

- Fasten the printer unit by tightening its mounting screws (2 places) with tightening torque 0.36 to 0.48 N·m.

- When mounting any communication unit on the outer stage, refer to GT15 User's Manual. When not mounting any communication unit on the outer layer, stick accessory stickers on the top of mounting screws (2 places) to cover the top of them in order to avoid receiving electrostatic. Keep the connector cover and sticker (see the following figure) fixed.

Point

- Precautions for connecting the dedicated printer connection cable (USB cable)
 - Wait 5s or more between the connection and disconnection of the dedicated printer connection cable. If connecting or disconnecting the dedicated printer connection cable shortly after disconnecting or connecting the cable, the GOT may not operate normally.
 - Do not connect or disconnect the dedicated printer connection cable during printing. Doing so can cause the GOT operate incorrectly.
 - Connected printer may not be recognized in rare cases. When printer is not recognized, disconnect the dedicated printer connection cable once and connect it again.
 - When the printer has been connected to a personal computer and used before it is connected to GOT, power on the printer again and connect it to GOT.
 - Any printer cannot be connected to GOT via USB hub.
 - Do not connect any devices to the printer while GOT is connected to it.
 - Do not connect any devices other than printer to the printer unit.

- Cable connection/disconnection
 - Wait 3s or more between the connecting and disconnecting operations of the dedicated printer connection cable. If not waiting 3s or more, the GOT may not operate normally.

- Printer unit removal
 - If you remove the Printer unit, detach it from specified direction (shown PULL) so as not to break a connector.

- Cable clamp
 - Pulling out the cable clamp band
 - The cable clamp band can be pulled out after cable treatment.
 - Pull out the band with pressing the tab of the cable clamp outward using a screwdriver etc.

- Removing from the printer unit
 - The dedicated printer connection cable can be removed from the unit with the cable clamp attached.
 - Remove the cable clamp by pressing it in both directions (arrow A).

- Screw of the connector holder
 - Do not remove the screw attached to the connector holder. In the case the screw is removed, do not use any other screws. Doing so may damage the unit.

Warranty

Mitsubishi will not be held liable for damage caused by factors found not to be the cause of Mitsubishi; machine damage or lost profits caused by faults in the Mitsubishi products; damage, secondary damage, accident compensation caused by special factors unpredictable by Mitsubishi; damages to products other than Mitsubishi products; and to other duties.

For safe use

- This product has been manufactured as a general-purpose part for general industries, and has not been designed or manufactured to be incorporated in a device or system used in purposes related to human life.
- Before using the product for special purposes such as nuclear power, electric power, aerospace, medicine or passenger movement vehicles, consult with Mitsubishi.
- This product has been manufactured under strict quality control. However, when installing the product where major accidents or losses could occur if the product fails, install appropriate backup or failsafe functions in the system.
